

PINOT GRIS

2026

SINGLE ESTATE, ORGANIC, HAWKE'S BAY, NEW ZEALAND

The 2026 Hawke's Bay Pinot Gris is vibrant and expressive, combining bright natural acidity with a beautifully rounded palate. Aromas of ripe pear, white peach and quince are layered with delicate blossom notes and a hint of honeysuckle. The palate is fresh and textural, revealing generous flavours of ripe orchard fruits, baked apple and subtle spice, carried by a silky mouthfeel and finishing with lingering notes of nashi pear and lychee. Delicious in its youth, this Pinot Gris is an ideal companion to warm summer days. While crafted for early enjoyment, careful cellaring over the next few years will reward with added texture, complexity and depth.

VITICULTURE \

Machine harvested grapes were de-stemmed and crushed to press. Stainless steel fermentation to maintain freshness. After fermentation the wine was prepared for bottling to maintain the fresh fruit aromas. Our focus is on clean varietal flavours, fresh fruit and richness on the palate..

WINEMAKING \
